

In the spotlight winner of the month

My name is Aleksandra, I'm 25 years old, originally from Russia.

For me as a photographer it's very important to stay on the same vibe, to get connected and to find unique approach to every person I work with and to try to open the most beautiful sides of every person about which he or she are usually not even aware.

The most important thing for me is to make my client happy and speechless with the result of the photo shoot.

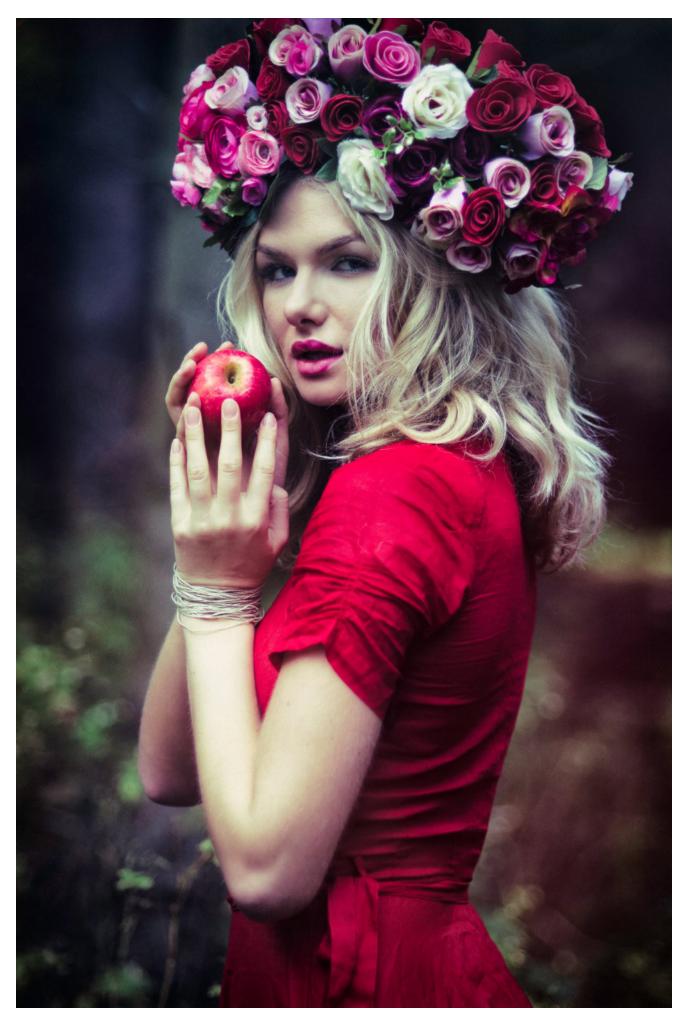

I'm still looking for my style in photography and I hope that this process will never end, because when I will start being satisfied with every single photo I take, I will stop developing.

Through some of my photography projects I'm trying to express and understand myself as well. Some of my projects where I was showing the themes that meant a lot to me, helped me to heal the wounds and to resolve some of my inner conflicts. And while having them exhibited in the galleries and hearing the feedbacks from the people, I realised that if at least one person could feel the same that I was feeling while looking at my photos, then everything I do isn't for nothing. I will try to post some of that photo shoots with explanation about them later on in my blog.

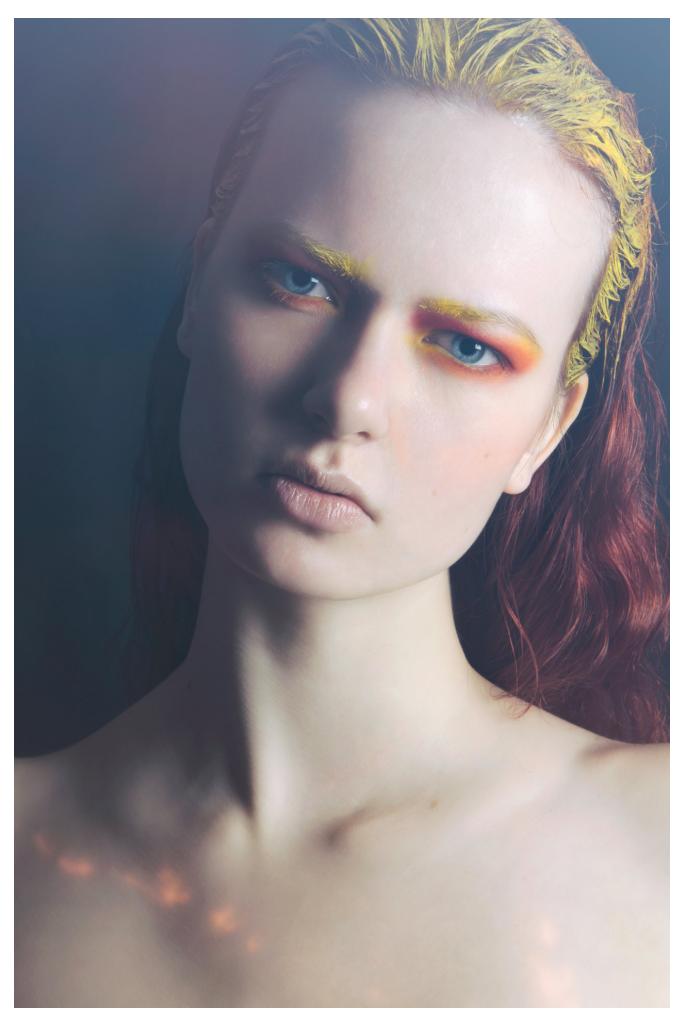

And to sum up: currently I'm working as a freelance photographer in The Netherlands, based in Amsterdam. My clients are fashion designers, clothes brands, DJ's, singers, actors and of course people who want to have beautiful pictures of themselves.
